

Walking Stick Predation Data

(From FOSS Populations & Ecosystems)

Directions: Make a graph of the data below. Graph only the initial populations for rounds 1-5. Ignore the first “16” in each of those columns. As you make your graph, consider the following questions: What kind of graph will you make? How will you represent the data?

Results									
30 seconds to eat insects									
	brown 			green-brown 			green 		
generation	initial	eaten	survived	initial	eaten	survived	initial	eaten	survived
starting population	16			16			16		
1	16	15	1	16	5	11	16	8	8
2	3	2	1	26	16	10	19	9	10
3	2	1	1	23	7	16	23	15	8
4	3	3	0	30	13	17	15	6	9
5	0	0	0	31	12	19	17	12	5
